

Gender Pay Gap Statement 2024

Hillcroft Nursing Homes Ltd is required by law to publish an annual gender pay gap report.

Using the standard methodologies of the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017 we have made the following calculations:

The Mean Gender Pay Gap.

The difference in the average pay of males and females, as at the snapshot date, shown as a percentage of the male figure. Positive percentages show higher male pay, and negative percentages show higher female pay.

The Median Gender Pay Gap.

The difference in the middle rate of pay (when pay rates are listed from high to low) of males and females as at the snapshot date, shown a percentage of the male figure. This method disregards any high or low pay rates which may distort the mean calculation.

The Proportion of males and females in each quartile pay bands.

The number of males / females as a percentage of the number of staff in each pay quartile. Pay quartiles are created by listing all pay rates from high to low and then splitting the list into four equal pay bands.

The Mean Bonus Gender Pay Gap.

The difference in the average amount of bonus paid to males and females in the year ending the snapshot date, shown as a percentage of the male figure.

The Median Bonus Gender Pay Gap.

The difference in the middle amount of bonus paid (when listed from high to low) to males and females in the year ending the snapshot date, shown as a percentage of the male figure.

The Proportion of males and females receiving a bonus payment.

The number of males / females receiving a bonus as a percentage of the total number of males / females.

This is the report for the snapshot date of 5 April 2023.

The mean gender pay gap	-10%
The median gender pay gap	-1%

Hillcroft Nursing Homes are committed to the principle of equal opportunities and equal treatment for all employees, regardless of sex, race, religion or belief, age, marriage or civil partnership, pregnancy/maternity, sexual orientation, gender reassignment or disability.

We have a clear policy of paying employees equally for the same work, regardless of their sex (or any other characteristic set out above).

In common with many care homes, the majority of our workforce (77%) is female, but all positions within Hillcroft are open equally to both men and women, with applicants being appointed on merit.

I confirm that the information in this statement is accurate.
